

English 9 Final Reflection

This year has shaped up to be a very strange school year! We are in the final week of school work. This week, put together an assignment that reflects what the COVID-19 lockdown/social distancing has been like for you.

You could...

- write a poem (or a short collection of poems)
- write a paragraph
- create a short playlist and explain how each song represents your experience

That's it! After that, I hope you all have a wonderful summer! I hope that I will be able to see you in person more regularly in the fall. Fingers crossed!
